

# Lean Six Sigma Green Belt

---

*Lead Projects. Leverage Data. Deliver Results.*

The Green Belt equips you to lead full DMAIC projects using data-driven decision making. This course builds advanced analytical capability and requires completion of a real-world improvement project.

- Lead cross-functional improvement projects
- Gain confidence using statistics and data
- Build credibility as an improvement leader
- Qualify for advanced roles and Black Belt progression

## WHAT YOU WILL LEARN

- Advanced DMAIC application
- Stakeholder analysis and project leadership
- Data collection, process capability, and sigma levels
- Hypothesis testing and regression analysis
- Control charts and statistical process control

## WHO THIS IS FOR

- Professionals leading improvement initiatives
- Analysts and project leaders
- Aspiring Black Belt candidates

## CERTIFICATION REQUIREMENT

Earn your Leanademy Green Belt by completing training, passing the exam, and delivering a validated improvement project.

## COURSE DETAILS

- Live Virtual Training:
  - Duration: 5 days
  - Includes SigmaXL and project coaching
  - Price: \$2495
